

Greetings to all of you horse lovers!

Here at Chunk of Heaven/The Resonant Horse, we had a situation which recently presented itself. Our dear Rocky, who has been with us for many years, was potentially going to leave us and be donated to another farm. Of course, this came as such a shock to our horse community. Rocky is deeply loved by the members of the barn tribe, as well as folks from the 4 corners of the globe. The reason his owners wanting to make this choice had nothing to do with the care he was receiving...It just was more of a change they wanted to make.

So, after recovering from a state of shock, I went into "what could be the solution" mode. I contacted the owners and they were willing to have Rocky remain at the farm. They are granting ownership to me. So, one hurdle overcome. The good news is, Rocky is here to STAY! What a blessing.

The more challenging news is, I now own 5, that is correct, FIVE horses. You can only imagine the revenue needed to sustain them. So...We are making Rocky "The People's Horse" here at Chunk of Heaven. The simple news is, we are searching for Corporate Sponsors for him. The great news is, by doing so, YOU can be more involved in his life. Not just financially, but time wise, as well. Check out all the options, and be a part of Rocky-The People's Horse! Please know that ANY offering is greatly appreciated! And, no amount is too small. These are just suggestions! We are looking for long term sponsors who can allow him to remain with us!
